“Breeding Your Prime Lamb Sires of the Future”

It is our pleasure to thank purchasers for your support of our White Suffolk rams, and appreciate the new and returning buyers in 2018. We trust that your purchases have been rewarding with plenty of quality lambs on the ground, to meet the very favourable market conditions. In 2018 we welcomed our son Cameron's return to Wilson's Creek and appreciate his great understating of modern genetics.

FIFTH ON PROPERTY WHITE SUFFOLK RAM SALE

MONDAY 4TH FEBRUARY 2019 at 10:00am.

40 Quality White Suffolk rams will be presented with ASBV data available for your selection.

Save the date! Plentiful country-style morning tea will be available, as usual.

2017 DROP RAMS

The rams on offer in February 2019 show pleasing Lambplan results with latest genetics. We continue to follow sort after traits including **Birth Weight, Weaning and Post Weaning Weights**, along with **Fat Score, Eye Muscle** measurements, and **WEC** data. Fertility has been outstanding in our White Suffolk Stud, with lambing percentages often exceeding 170%.

INTRODUCTIONS

Since purchasing the foundation 100 White Suffolk Stud Ewes in 2009, we have sought genetics to give direction to the lamb of the future, particularly in regard to body structure, growth rates, lean meat yield and eating quality. “Farrer” bloodlines have been used predominately in recent times to enhance these traits.

The 2019 sale rams will include breeding from two outstanding Farrer sires namely (150196) and (150113). Ram **150196** was purchased in 2016 for \$8500 and his progeny are worth following.

HEALTH STATUS: We continue to maintain **OLD Status MN3** and all rams are **Brucellosis free**.

SALE CATALOGUES: Catalogues will be available late January. Please email wilsonscreek@bigpond.com if you would like to be sent an electronic copy. If you would like any other information, please contact:

Tony Gall (0407 936 975), **Cameron Gall** (0488 784 091) or selling agents **P R Watts & Co Pty Ltd** on **02 6772 7811**.
